

First Origin PET Caps in Stores with Power Hydration Pilot Launch

August 14, 2025

WEST SACRAMENTO, Calif.--(BUSINESS WIRE)--Aug. 14, 2025-- [Origin Materials, Inc. \("Origin"\)](#) (Nasdaq: ORGN, ORGNW), today announced the first Origin PET caps in stores. Origin partnered with Power Hydration, a new alkaline beverage brand, for the initial release of the first-of-its-kind product in select California stores, featuring a recyclable bottle and cap.

Origin CEO John Bissell commented: "We're excited to announce our first PET caps on store shelves today. A commercially scalable PET cap on a PET bottle is an industry first, representing a significant step forward in the adoption of Origin's cap platform and delivering on our vision of bringing sustainability, improved recyclability, and better performance to the beverage industry. The products our partner, Power Hydration, put on store shelves in California feature Origin's 1881 closure and are emblematic of the industry's transition toward mono-material PET packaging solutions offering full recyclability—including the cap—and beautiful transparency, made with PET from cap to bottom. Our customer pipeline includes both large and small brands, and our pilot launch with Power Hydration is a demonstration of how forward-looking smaller brands can lead the way on sustainability by embracing new and groundbreaking technology."

Power Hydration Co-Founder George Kotzeff commented: "We are thrilled to partner with Origin for the initial launch of Power Hydration, a new alkaline beverage brand offering consumers clean, crisp hydration. Together, we are making beverages with recyclable PET caps available to consumers in stores. This is a tremendous milestone for the industry, and we are excited to grow the Power Hydration brand around the pillars of sustainability, complete recyclability, and healthy, clean hydration."

About Origin Materials

Origin is a technology company with a mission to enable the world's transition to sustainable materials. Our innovations include PET caps and closures that bring recycling circularity and enhanced performance to a ~\$65 billion market, specialty materials, and our patented biomass conversion platform that transforms carbon into sustainable materials for a wide range of end products. About Power Hydration

Power Hydration is the new wave of alkaline water. With a crisp, clean taste, Power Hydration empowers you to drink your way to better health, featuring 100% recyclable containers including the cap. <https://powerhydration.com/>

Cautionary Note on Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements generally are accompanied by words such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "should," "would," "plan," "predict," "project," "potential," "seem," "seek," "target," "future," "outlook," and similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements regarding Origin Materials' business strategies, prospects, industry trends, and estimated total addressable market. The forward-looking statements are based on various assumptions, whether or not identified in this press release, and on the current plans, objectives, estimates, expectations, and intentions of the management of Origin and are not predictions of actual performance and inherently involve significant risks and uncertainties. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on as, a guarantee, an assurance, a prediction, or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of Origin. These forward-looking statements are subject to a number of risks and uncertainties including, but not limited to, the fact that Origin Materials may be unable to successfully commercialize its products; the effects of competition on Origin Materials' business; the uncertainty of the projected financial information with respect to Origin; disruptions and other impacts to Origin's business. Other factors that could adversely affect the Company's operations include those discussed in the Company's Quarterly Report on Form 10-Q to be filed with the U.S. Securities and Exchange Commission (SEC) on August 14, 2025 under the heading "Risk Factors," and other documents Origin has filed, or will file, with the SEC. If any of these risks materialize or our assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that Origin Materials presently does not know, or that Origin currently believes are immaterial, that could also cause actual results to differ from those contained in the forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law.
